Subject: Interim draft VOC data summary report that covers all summa canister data.
VOC Interim Report .04152015.pdf

Jeff and Scott: Here's the draft VOC data summary report that covers the summa canister data from start to finish (May through December). Radiello results will be covered in their own interim report (but include comparison to the summa data). This report should be out by late next week.

After you have had a chance to digest this, please disseminate to those who need a copy (i.e. air, tox, opa, etc.) This report does not conflict with any of the previous reports for the COCs monitored. Bon appetite and enjoy the weekend reading!
